DETAILED ACTION

1. This Office Action is a response to communications dated 01/10/08. New claims 6-9 are present in the instant application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 6-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As per claims 6-9, the claims commonly recite the limitation of "*generic decoder to convert coded data at an input into decoded data at an output,*" (emphasis added) and "a specific function of the generic decoder is overlaid with a corresponding function of the specific decoder so the corresponding function is interpreted by the generic decoder" (emphasis added). It is noted that the original specification discloses the claimed invention in very little details. A careful review of the original specification Examiner finds no support for the above claimed limitation or its description in the familiar terms. In a response to this Office Action, Applicant should clearly point out where the original specification discloses the claimed limitation in a manner as recited.

(Note: Due to the above problems, there is no art to determine the allowability of the claims at this time)

Response to Arguments

3. Applicant's arguments with respect to claims 6-9 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
